

Top level : assign headmaster to school → School name  
→ E I I N  
→ password

Admin : headmaster login and change password  
assign teacher → Name  
→ password

User : teacher login and change password

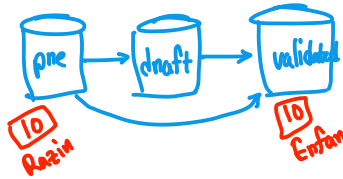

render.com for postgresql  
Azure → simple storage service  
Firebase

## workspace table

id — primary key — uid  
 name  
 class  
 section  
 EIDN  
 year  
 total students  
 out of date

## issue

id issue uniqueness

→ solution → state change means id change

3 to 4 unique id's are

3 to 4 table and form id change

???

or यदि दुर्लभता को नॉल किया जाये

Workspace for class / section B

uploads a pdf of roll 1 outside workspace

will it be automatically created? after validation will ask user if he wants to link it to his workspace.

automatic workspace creation?

प्रश्न Enfon को validate करेंगे

अथ प्रश्न को 3 Same प्रश्नों को form upload करेंगे

हम validate करेंगे यह Duplicate है या नहीं?

2nd जो validate करेंगे यह check करेंगे

यह Duplicate है या नहीं

नहीं है all good insert into DB

Duplicate है तो बनाने का आवाज़ देना होगा और डिफ़ॉल्ट आगे क्या

अब निर्णय करना होगा Delete नुसार

- निर्णय ना शायद insert नुसार
- keep log
- notify someone

manually create admin/headmaster from DB  
admin creates user, logs in with EIN
